

Office of Legislative Counsel

Journal

Tuesday - 24 February 1959

1. [] telephoned in connection with the Joint Procurement Program to advise that [] proposed to brief Congressman Omar Burleson (D., Tex.) of the new arrangement. [] had queried whether we had any objection to such a briefing of Mr. Burleson. [] was advised that we had no objection.

2. Telephoned Mr. Frank McCulloch in the office of Senator Paul H. Douglas (D., Ill.) to discuss the referral to the Agency of a constituent letter asking if the information in the Edmundson article published in THE PROGRESSIVE was correct. I asked Mr. McCulloch if I could discuss the matter with him to determine the Senator's interest. Mr. McCulloch felt that no discussion was necessary and that if we would simply write a general letter stating that we do report to appropriate committees in the Congress and are responsible to the National Security Council and the President that this would be sufficient for their purpose.
